

TCT-POROSET[®]

Tungsten carbide tip (TCT) bandsaw blade for construction, abrasive and mineral materials

LEVEL PRODUCT 2

GEOMETRY TC

SIZES 27x0,9- 41x1,3 mm

Characteristics

- Special unset blade in carbide for long wear in cutting construction, abrasive and mineral materials on manual feed machines
- For use on composite materials, graphite and carbon fiber
- Reinforced profile geometry

Applications

- Aerated concrete
- Brick
- Solid concrete blocks
- Insulating materials
- Graphite
- Fiberglass and carbon fiber reinforced plastic

Advantages

- Can be used without coolant
- TCT tips resistant to highly abrasive materials
- Cutting geometry gives low resistance for manual advancement
